

Speciality Magnetic Components

QUALIFIED TO ISO 9001:2008

## REACH COMPLIANCE STATEMENT

Telcon Limited are fully aware and understand the aspects and impacts of the EU regulation 1907/2006, dated December 2006, on the Registration, Evaluation and Authorisation of Chemicals and the dates which the guideline dictate.

Telcon is classified as a Downstream user. We do not create chemicals from raw materials but are involved in the processing of them. We are not therefore required to pre-register or register our products.

We confirm that none of the substances on the European Chemicals Agency list of SVHC, last updated January 2017, are used in any of Telcon's products or production processes.

Our current active REACH policy is therefore :-

- 1: To continue and monitor and stay abreast with the legislation as it further develops.
- 2: Continue to monitor the Candidate list as it continually evolves.
- 3: Continue to work with our suppliers to ensure all materials are compliant.
- 4: Continually review our materials in both existing and all new products.

Should you require further information, please contact us.

A handwritten signature in black ink, appearing to read "M.A. Atkins", is written over a circular stamp or seal.

M.A. Atkins

Engineering & Quality Director.

January 2017.
